

ProFusion ULTRA IS

Testimonials Manager

At the bottom of the main administrative page on the left side is the Advanced Features section under which all ProFusion Ultra IS add-on modules are listed like you can see in this figure below.

The screenshot shows the ProFusion UIS Web Site Backend interface. On the left is a navigation sidebar with the following sections:

- Content**: Home Page, Custom Pages, Sitemap Page, Register Page, Terms and Conditions, Privacy Policy, Contact Us Box, Footer Information
- Secure Users**: Users Page Content, Registered Users, Secure Zones/Pages
- Help**: General Help, Editor Help, About Us
- Webmaster**: Change Profile, Change Password, Settings, Flash Images, Header Images
- Advanced Features**: Form Builder, Elegant Image Gallery, Content Rotator, Testimonials Manager

The main content area displays the following information:

Welcome to the backend of ProFusion UIS
Please follow the links on the left column to proceed

The Date and Time on the servers is currently 8/12/2008 9:52:29 AM

Free Space	Used Space

Database : 39.44 MB	Database : 10.56 MB

Testimonials Manager

Placing testimonials manager on your website allows your clients and website visitors to post their own comments and testimonials on your website. ProFusion Ultra IS Testimonials Manager comes with a bad word filter thereby controlling the testimonials content display on your website. It allows the admin to decide what and when the comments should be displayed on your website.

Customize Testimonials

You can customize your testimonials by configuring the bad word filter on your admin panel. To add a bad word filter:

1. **Click** on Testimonials Manager link under Advanced Features section heading from the main admin page screen as shown in the figure above.

- This action takes you to the Testimonials Manager main page screen which looks something like the figure below.

Amend or Delete Comments Display Pre-Authorized Comments Configure the Bad Word Filter

Home » Display Pre-Authorized Comments

No Record Found

Legend
 Edit Comment

- Click** Configure the Bad Word Filter link that you see on top of the page. This action opens up another window where you will see options of filtering bad words, see figure below.

Amend or Delete Comments Display Pre-Authorized Comments Configure the Bad Word Filter

Home » Configure the Bad Word Filter

Add New Bad Words To List

Type any words you would like to add to the Bad Word filter into the boxes below. Both the *Bad Word* and the *Replace With* boxes must be filled in for each new word. You can add between 1 and 3 new bad words at once.

Bad Word	Replace With
<input type="text" value="sucks"/>	<input type="text" value="great"/>
<input type="text" value="awful"/>	<input type="text" value="awesome"/>
<input type="text" value="terrible"/>	<input type="text" value="great"/>

Remove Bad Words From List

Place a tick in the checkbox for any bad words you wish to remove from the list then click on the Delete Bad Words from List button.

Delete	Bad Word	Replaced With
<input type="checkbox"/>	Bad	Good

- Type** the words to be filtered and replaced in your testimonials inside the first box on this screen.
- Click** button to add in the filter words.

6. Once the words are added into the system, you can see them in the second box on the same screen as shown in this figure below.

Add New Bad Words To List

Type any words you would like to add to the Bad Word filter into the boxes below. Both the *Bad Word* and the *Replace With* boxes must be filled in for each new word. You can add between 1 and 3 new bad words at once.

Bad Word	Replace With
<input style="width: 95%;" type="text"/>	<input style="width: 95%;" type="text"/>
<input style="width: 95%;" type="text"/>	<input style="width: 95%;" type="text"/>
<input style="width: 95%;" type="text"/>	<input style="width: 95%;" type="text"/>

Remove Bad Words From List

Place a tick in the checkbox for any bad words you wish to remove from the list then click on the Delete Bad Words from List button.

Delete	Bad Word	Replaced With
<input type="checkbox"/>	awful	awesome
<input type="checkbox"/>	Bad	Good
<input type="checkbox"/>	sucks	great
<input type="checkbox"/>	terrible	great

7. This box allows you to delete the filter words. To delete a filter word, simply **Click** inside the check box of the corresponding word and **Click** button.

How to Place the Testimonials Manager on Your Website

To place the testimonials manager on your web page:

1. **Click** Custom Pages link on the left hand section of the main administrative page screen.

Welcome to the backend of ProFusion UIS

Please follow the links on the left column to proceed

The Date and Time on the servers is currently 7/10/2008 2:56:41 PM

Free Space	Used Space
1030.26 MB	19.74 MB
File System : 987.76 MB	File System : 12.24 MB
Database : 42.5 MB	Database : 7.50 MB

2. This action takes you to the Main Pages screen where all your web pages will be listed as shown in the figure below.

Home » Main Pages

[Add Page]

Showing 1 - 6 of 6 « First | Previous Page 1 of 1 Next | Last »

		Section Title	Order	Secondary Pages
✓	<input type="checkbox"/>	About Us	↑ ↓	→ [0]
✓	<input type="checkbox"/>	Services	↑ ↓	→ [0]
✓	<input type="checkbox"/>	Team	↑ ↓	→ [1]
✓	<input type="checkbox"/>	Contact	↑ ↓	→ [0]
✓	<input type="checkbox"/>	Events	↑ ↓	→ [0]
✓	<input type="checkbox"/>	Guest Book	↑ ↓	→ [0]

Activate Page(s)

3. **Click** the page on which you want to display the testimonials. For this tutorial, we will **Select** Guest Book page. This action takes you to the Guest Book page edit screen.

4. On this edit page screen, **Position** the cursor inside the text area and **Select** Testimonial from the Template Variables drop down menu as shown in this figure.

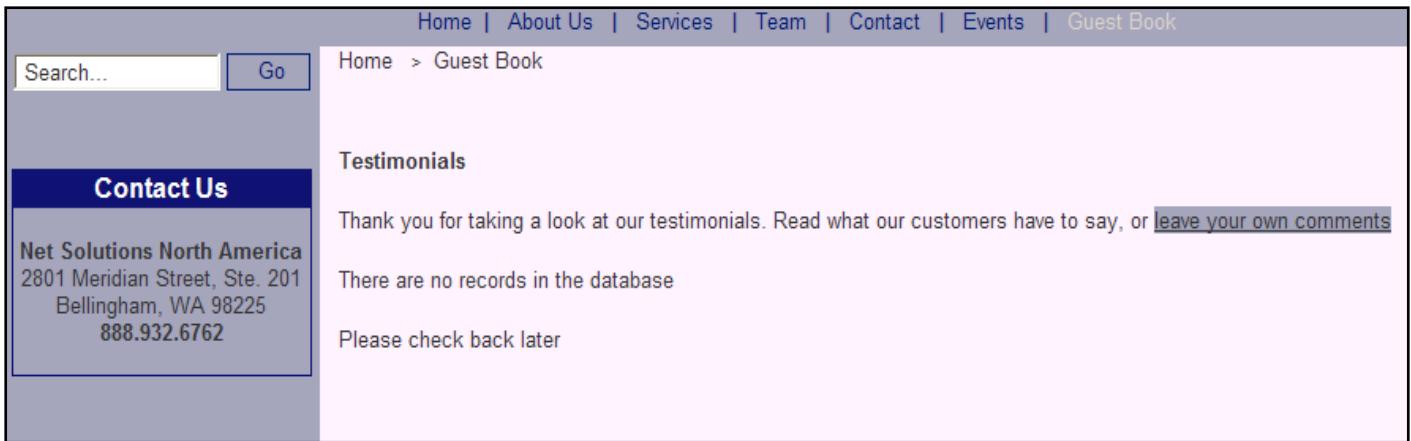

The screenshot shows a content editor window titled "Content". It has three main input fields: "Section Title*" with the value "Guest Book", "Short Name*" with the value "guest_book", and "Page Content" with the value "Width of Editor Managed Content 800px". Below these fields is a rich text editor toolbar with various icons for text formatting and alignment. Under the toolbar, there are four dropdown menus: "Template Variables", "Forms", "Elegant Image Galleries", and "Content Rotators". The "Template Variables" dropdown is open, showing a list of options: "Sitemap", "Register", and "Testimonial". The "Testimonial" option is highlighted with a mouse cursor. The main editing area below the dropdowns contains the text "[TPL_GUESTBOOK]". At the bottom of the editor, there is a status bar with the text "<BODY> <P>" and a label "Active" followed by a radio button set with "Yes" selected and "No" unselected. At the very bottom, there are three buttons: "Save", "Save and Continue", and "Cancel".

5. Now you will see something like [TPL_GUESTBOOK] inside the page editor area. This command instructs the system to merge in the testimonials manager you have just placed on the page. The page editor area should now look something like the one shown above.
6. **Click** **Save** button to save the page edits.

You have now successfully placed the testimonials on your web page.

Frontend Functionalities of the Testimonials Manager

Open the web page that has the testimonials on your browser. The page screen would look like the one shown here.

Showing 1 - 1 of 1		« First Previous Page 1 of 1 Next Last »
<input type="checkbox"/>	Message Number 1 Comment By David Townsend on 8/12/2008 1:26:22 PM IP Address 74.93.109.94 Country United States Email David_Townsend@mailinator.com Homepage at http://www.mywebsite.com Comment Your product was so easy to use. It was fun to do my own website	
Approve Comment(s) <input type="button" value="Go"/>		
Legend  Edit Comment		

To amend this comment:

1. **Click** the  arrow. This action takes you to the amend comment page screen where you can see a detailed description of the comment with the option of amending the comment.

Amend or Delete Comments	Display Pre-Authorized Comments	Configure the Bad Word Filter
Home » Amend or Delete Comments » Amend Comment		
Message Number 1 Message Date 8/12/2008 1:26:22 PM Comment By * David Townsend Country * United States Email * David_Townsend@mailinator.com Homepage at http://www.mywebsite.com Comments * Your product was so easy to use. I had great fun doing my own website Characters Left 181 Displayed <input checked="" type="checkbox"/>	<input type="text" value="David Townsend"/> <input type="text" value="United States"/> <input type="text" value="David_Townsend@mailinator.com"/> <input type="text" value="http://www.mywebsite.com"/> <input type="text" value="Your product was so easy to use. I had great fun doing my own website"/> <input type="text" value="181"/> <input checked="" type="checkbox"/>	<input type="button" value="Submit"/>

Click inside the Comments box to edit the sentence. For this tutorial, let us edit the sentence “It was fun to do my own website” to “*I had great fun doing my own website.*”

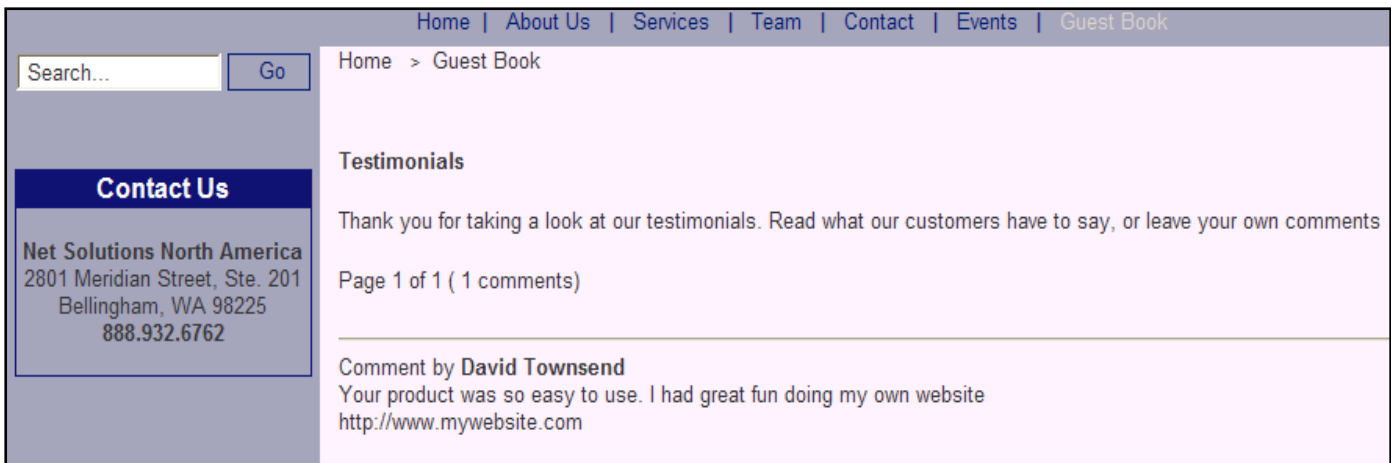

2. **Click** the check box placed next to “Displayed” field to display the comment on your website.

Note: Now this comment can be viewed by **Clicking** the “Display Pre-Authorized Comments” link.

3. **Click** button to save changes to the comment.

Note: To delete a comment, **Click** the check box of the corresponding comment and **Select** Delete

Comment(s)  from this drop down and **Click** button.

Your website will now display the comment that was amended by the admin like shown in this figure.

How a Bad Word Filter Works

To explore how a bad word filter works for the testimonials, let us **Sign-in** a testimonial from the frontend using one of the filtered bad word “terrible.” We will **Type** “I recently purchased your product and it was terrible” in the Comments field like shown in the figure below and submit the testimonial.
